

HURRAY!! – The vaccine has arrived – It is safe and 95% effective!

But is it really?

Did you know.....?

Covid-19 Vaccines are based on a **BRAND-NEW TECHNOLOGY** - never before approved for use in humans ([1,2,3](#)).

Coronavirus vaccines have been researched for **20 YEARS**.

Previous attempts have failed due to serious adverse events and deaths in animal trials ([4,5,6](#)).

Previous coronavirus vaccine trials have shown **IMMUNE ENHANCEMENT** in animals ([4,5,6,7](#)).

This means vaccinated animals got sicker when exposed to coronavirus – the opposite of the desired effect.

Claims of up to 95% effectiveness of Covid-19 vaccines are based on **INTERIM DATA** evaluating a very small group of trial participants (**0.2%!!!**). This was a group with a positive test and mild symptoms, and up to 95% of these were in the placebo group. No conclusions can be drawn from these very limited numbers ([8](#)).

Trials are not assessing if the vaccine prevents severe illness, deaths or transmission of the virus ([9](#)).

All trial volunteers were healthy adults. The vaccine will be entirely **EXPERIMENTAL** in children, pregnant women and those with any health conditions. Long term safety data beyond 3 months do not exist for anyone ([10](#)).

UK legislation (Human Medicine Regulations) had to be changed in November 2020 to allow for an unlicensed vaccine to be used on the population ([11](#)).

Vaccines normally take between **10-15 YEARS** to develop ([12](#)). Product failure rates are over 90%. The fastest vaccine produced for mass administration (Mumps) took 5 years. The manufacturer (Merck) is being sued for fraud and falsifying data claiming it was 95% effective in order to get FDA approval ([13,14,15](#)).

The UK has paid out over **£74 MILLION IN COMPENSATION FOR VACCINE INJURY AND DEATH** (1978-2017) with 1 in 7 claims successful ([16,17](#)). Vaccine injury compensation payments in the US were **\$ 4.2 Billion** (1988-2019). Figures do not include any of the numerous cases settled out of court with non-disclosure agreements ([18,19](#)).

Covid-19 Vaccine manufacturers received **LARGEST FINES EVER** for Pharmaceutical companies.

GlaxoSmithKline – Largest ever fine **\$ 3 Billion** - False claims, withholding safety data and bribes ([20](#))

Pfizer – Second largest fine ever **\$ 2.3 Billion** - False claims and other criminal violations ([21](#))

\$75 Million - Illegally testing an antibiotic on African children some of whom died ([22](#))

£84 Million - Overcharging the NHS by 2600% ([23](#))

AstraZeneca - \$520 Million & \$355 Million - False claims, bribes, Medicare fraud ([24,25,26](#)).

The Medical and Healthcare Products Research Agency (MHRA) are to procure software to report **ADVERSE EVENTS** from Covid-19 vaccines. Expected numbers of adverse reactions will be too high for the legacy system to cope ([27](#)).

Manufacturers of Covid-19 vaccines have been granted **EXEMPTION FROM LIABILITY**.

This means taxpayers will pay compensation for adverse effects ([28, 29](#)).

Will the vaccine save us and help us get back to normal?

Be aware – this information is being censored! ([30, 31](#))
