

Dr Mike Yeadon, Former Pfizer VP: ‘Your government is lying to you in a way that could lead to your death.’¹

- Dr Sucharit Bhakdi, microbiologist: “They are killing people with covid vaccines to reduce the world’s population.”²
- Dr Roger Hodkinson: “Don’t believe what you’re being told – it’s a pack of lies from start to finish – it’s intended to make you fearful and compliant.”³
- Dr Reiner Fuellmich, German top lawyer: “Those responsible for the corona fraud scandal must be criminally prosecuted for crimes against humanity... This is a fight of good against evil...”⁴

Even before the end of 2020, thousands of people, including many experts, agreed the UK Government was responsible for acts of fraud, medical malpractice and domestic terrorism.⁵

From the Government’s own “Vaccine” Leaflet,⁶ we read: *“In the UK several different types of COVID-19 vaccines will be used during 2021. The vaccines will only be approved on the basis of large studies of safety and effectiveness.”*

This means the “vaccine” is experimental and unapproved. **Official figures show 1000s of adverse reactions and hundreds of deaths following “the jab” - in the US⁷ and the UK⁸** – yet using google to search for this data brings up other links. The vaccine leaflet does not list all the side effects which have been experienced. Further, it states that you must still wear a mask etc – so offers no real protection.

Further, the leaflet states: *Will the vaccine protect you? - The COVID-19 vaccination will reduce the chance of you suffering from COVID-19 disease. It may take a few weeks for your body to build up some protection from the vaccine. Like all medicines, no vaccine is completely effective – some people may still get COVID-19 despite having a vaccination, but this should be less severe.*

There are plans to administer the “vaccine” to children – but this could be disastrous. There is no medical reason to vaccinate children for the COVID disease – the proportion of children that have exhibited severe symptoms or fallen ill is so small that it is barely measurable.⁹ With a fraudulent test, how can anyone even reliably say they are infected? If you asked a child to take the vaccination, would they pass the Gillick Competence Test?¹⁰ People go along with this because of the months-long all-pervasive media-generated fear campaign.¹¹ **“Big Tech” companies like Youtube, Facebook and Twitter are censoring voices and publications that challenge the “COVID Bad, Vaccine Good” narrative.** Groups or Channels which have been pulled include Lifesite News, Corbett Report, World Doctors Alliance, America’s Frontline Doctors and Dave Cullen. Dr Heiko Schoning (Germany)¹² was arrested and Dr Simone Gold (USA)¹³ was raided by the FBI after expressing scepticism of the government/media narrative.

CHOOSING YOUR COVID-19 VACCINE

FACTS YOU NEED TO KNOW

	Pfizer: \$4.7 billion in fines for false claims, drug and medical equipment safety violations, off-label promotion, corrupt practices, kickbacks, and bribery.
	Moderna: Has never brought a vaccine to market since its founding, despite fielding 9+ vaccine candidates, none of which made it through phase 3 clinical trials.
 Johnson & Johnson	Johnson & Johnson: Named in hundreds of thousands of lawsuits for toxic and/or dangerous products, including drugs, shampoos, medical equipment, and asbestos-contaminated baby powder.
	AstraZeneca: Suspended by two dozen European countries due to severe, lethal adverse reactions, like blood clots.

Don't worry, you're in safe hands!

If you're vaccinated, remember to wear a mask and socially distance because you can still spread COVID-19. Trust The Science™

WHERE IS YOURS?

The Line in the Sand

The PCR test for the Covid virus is fundamentally flawed and unreliable,¹⁴ and 3 different courts in Portugal¹⁵, Austria and Germany¹⁶ agree.

- BUT you still believe that all the numbers are true!

The overall 2020 figures for “all-cause mortality” show approximately 1% of the total UK population died. In 2000, 1.02% of the population died.¹⁷ In 1976, 1.2% of the UK population died. Many places had fewer hospital admissions in 2020 than in previous years – for example, there was a 28% drop in admissions in Derbyshire.¹⁸

- BUT you still believe the stories of mass death and terrible sickness around the world.

In Chesterfield, the number of burials in 2020 was less than in 2015 and 2014.¹⁹ Have you seen bodies piled up in your local cemetery?

- BUT you still believe the stories that “COVID” will make you so ill.

A number of public vaccine advocates and health professionals have died soon after having the COVID vaccine.²⁰

- BUT you still think you and everyone else should take it for “protection.”

In the UK, Vaccinations began on January 6th and a Southern UK Funeral Director has said – “I’ve never known a death rate like it in 15 years”.²¹

- BUT you still believe the media stories of it being “safe and effective.”

Truly safe and effective treatments for “COVID” victims such as ivermectin²² and hydroxychloroquine²³ are perniciously suppressed...

- BUT you still think the “vaccine” is the only option on the table.

Renowned scientists, doctors, journalists try to tell you that questions need to be asked. They get censored, banned, suspended, arrested

- BUT you don’t want to hear it!

WHAT IF you or your family are ill, but cannot get the treatment you need because everything that isn’t Covid-19 is put on hold?

WHAT IF it became clear the vaccine is causing serious adverse events, but you are told you still need to take it or else you can’t work, go to school, university or travel or go shopping?

WHAT IF you were told your child or your grandmother needs to be taken to a quarantine facility aka isolation camp?

WHAT IF you were told people in isolation camps are never allowed to come home again?

What do they have to tell you for you to start asking questions?
